Forest Practices Application/Notification Western Washington

PLEASE USE THE INSTRUCTIONS TO COMPLETE THIS APPLICATION. TYPE OR PRINT IN INK.

1. Landowner, Timber Owner and Operator

Legal Name of LANDOWNER Dalpay Properties LLC	Legal Name of TIMBER OWNER (if different than Landowner) same as landowner	Legal Name of OPERATOR (if different than Landowner) Erickson Logging, Inc.
Mailing Address: 7100 Fort Dent Way, Ste 280	Mailing Address:	Mailing Address: P.O. Box 365
City, State, Zip Tukwila, WA 98188	City, State, Zip	City, State, Zip Gig Harbor, WA 98335
Phone (206)399-6302 Email: jrdalpay@rocketmail.com	Phone () Email:	Phone (360)606-6060 Email: ericksonlogging@aol.com

2. Contact Person

Contact Person: Peter C. Blansett, S.A. NEWMAN FIRM	Phone (425)259-4411 Email: pblansett@sanforest.com
--	--

3. Landownership information: See instructions

- a. ☐ No ☒ Yes Are you a small forest landowner per RCW 76.09.450?

If yes, continue to b.

- b. ☐ No ☒ Yes Is your entire proposed harvest area on a single contiguous ownership consisting of one or more parcel?

4. If you are harvesting timber, enter the Forest Tax Reporting Account Number of the Timber Owner:

800 082-616

For tax reporting information or to receive a tax number, call the Department of Revenue at 1-800-548-8829.

5. Are you substituting prescriptions from an approved state or federal conservation agreement or watershed analysis?

- ☒ No ☐ Yes Write 'HCP' or 'Using Prescriptions' in tables that apply. Attach or reference prescriptions and/or crosswalks on file at the Region office.

6. What is the legal description of your forest practices?

Section	Township	Range	E/W	Tax Parcel Number	County
35	24N	5	E	352405-9010	King
2	23N	5	E	022305-9022	King

7. When are you planning to begin work on the proposed activity? May 2018

8. Is the taxpayer eligible for the EARR Tax Credit?

☐ No ☒ Yes

9. Have you reviewed this forest practices activity area to determine whether it may involve historic sites and/or Native American cultural resources? Read the instructions before answering this question.

☒ No ☐ Yes

10. Do you have a DNR approved Road Maintenance and Abandonment Plan (RMAP)?

a. ☒ No ☐ Yes List the RMAP number: _____

If no, continue to b.

b. ☒ No ☐ Yes Is a Checklist RMAP required (see instructions)?

11. Are there potentially unstable slopes or landforms in the area of your forest practices activity?

☒ No ☐ Yes – attach Slope Stability Informational Form. If applicable, attach geotechnical report, the SEPA Environmental Checklist, HCP, or Watershed Analysis prescriptions.

12. Are there potentially unstable slopes or landforms around the area of your forest practices activity?

☐ No ☒ Yes – attach Slope Stability Informational Form. If applicable, attach geotechnical report, HCP, or Watershed Analysis prescriptions.

13. Is this forest practice application/notification (answer every question):

a. ☐ No ☒ Yes Within city limits or inside an urban growth area? If yes, see instructions for additional required documents.

b. ☒ No ☐ Yes For road work that is included in an approved Road Maintenance and Abandonment Plan (RMAP)?

c. ☒ No ☐ Yes Within a public park? If yes, include SEPA Environmental Checklist or SEPA Determination - except for harvest/salvage of less than 5,000 board feet within a developed public park.

d. ☐ No ☒ Yes Within 500 feet of a public park? Park name: Cougar Mountain Regional Wildland Park

e. ☒ No ☐ Yes In an approved Conversion Option Harvest Plan (COHP) from the local government? If yes, include a copy. This only applies to proposals within urban growth areas.

f. ☒ No ☐ Yes Within 200' of the Ordinary High Water Mark (OHWM) or floodway of Type S water? If yes, check with the county or city to determine whether a substantial development permit is required under the local shorelines master plan.

g. ☒ No ☐ Yes A request for a multi-year permit? If yes, length requested: ☐ 4 years or ☐ 5 years. Not everyone qualifies for a multi-year permit. See instructions for details.

- h. ☐ No ☒ Yes An Alternate Plan? If yes, include a copy.
- i. ☒ No ☐ Yes Within 50 miles of saltwater and do you own more than 500 acres of forest land in Washington State? If yes, include Marbled Murrelet Form or attach/reference HCP prescriptions.
- j. ☒ No ☐ Yes In or directly adjacent to a potential Channel Migration Zone (CMZ)? If yes, include CMZ Assessment Form. Attach/reference applicable HCP and/or Watershed Analysis prescriptions.

***** **If not working in or over typed waters, skip to Question 18** *****

You are required to verify Type Np and Ns water types within 200 feet of your proposed forest practices activities prior to submitting a Forest Practices Application / Notification. Use the Additional Information section, additional pages, the Water Type Classification Worksheet, and/or a Water Type Modification form to explain how you verified water types. See Water Typing Requirements in the instructions.

Prior to answering Questions 14-17 in this section please refer to the Forest Practices Application Instructions and Forest Practices Board Manual Section 5.

14. Are you proposing any of the following projects NOT permitted by current HPAs from WDFW?

- a. ☒ No ☐ Yes Installing, replacing, or repairing a culvert at or below the bankfull width of Type S or F water(s) that exceeds a five percent gradient?
- b. ☒ No ☐ Yes Constructing, replacing, or repairing a bridge at or below the bankfull width of unconfined streams in Type S or F water(s)?
- c. ☒ No ☐ Yes Placing fill material within the 100-year flood level of unconfined streams in Type S or F water(s)?

15. Have you consulted with DNR and/or WDFW about the proposed hydraulic project(s) in or over Type S or F water? ☒ No ☐ Yes

16. If installing, replacing, removing, or maintaining structures in or over any typed water, complete the table below. Type S and F waters require detailed plan information. Provide plan details in Question 31 or attach plan to the FPA/N. Provide crossing locations and identifiers on your Activity Map. A detailed plan with profiles may also be required for more complex hydraulic projects in Type N Waters per WAC 222-24-042(2).

Crossing Identifier (letter and/or number)	Water Type (S, F, Np, Ns)	*Existing HPA Number (if applicable)	HPA Expiration Date (if applicable)	Planned Activity (install, replace, remove, temporary, structure maintenance)	Structure (culvert, bridge, ford**, punchoon, arch, other)	Proposed Size (dimensions of structure)	Culvert Design Method (No-slope, Stream-sim, Hydraulic, Other) (F and S only)	Channel Bed Width (ft) (F and S only)	Stream Gradient (%) (F and S only)	RMAP Project (Y or N)	FFPP Project (Y or N)

*Existing HPAs issued by WDFW will be complied and enforced by WDFW until expiration. Plan details are not required for hydraulic projects permitted with an existing HPA (see instructions).

** Fords and equipment crossings on Type S and F Waters may result in an unauthorized incidental take of certain endangered or threatened fish species. For more information, see 'Background for the State's Incidental Take Permits for certain endangered and threatened fish species' following Question 24 of the FPA/N Instructions.

17. If conducting any of the following activities in or over typed water, complete the table below. Some activities will require identifiers on the Activity map and/or more information in Question 31. See instructions.

*Activity	Type S Water	Type F Water	Type Np Water	Type Ns Water
Equipment Crossing**				
Suspending Cables				
Cable Yarding				
LWD Placement/Removal				
Beaver Dam Removal				
Felling and Bucking				
Other (describe in Question 31)				

*Existing HPAs issued by WDFW will be complied and enforced by WDFW until expiration. Plan details are not required for hydraulic projects permitted with an existing HPA (see instructions).

** Fords and equipment crossings on Type S and F Waters may result in an unauthorized incidental take of certain endangered or threatened fish species. For more information, see 'Background for the State's Incidental Take Permits for certain endangered and threatened fish species' following Question 24 of the FPA/N Instructions.

18. If constructing or abandoning forest roads, complete the table below. Show the road locations and identifiers on the Activity Map. Include abandonment plans for temporary roads and abandonment projects.

Road Identifier (name, number)	Road Construction		Road Abandonment	
	Length (feet)	Steepest Side-slope (%)	Length (feet)	Abandonment Date
P.B. 4/20 A R-1	2200	35	2200	12/2019

19. If depositing spoils and/or expanding or developing a rock pit for forestry use, complete the table below. Show locations and identifiers on the Activity Map.

Spoil Area Identifier (letter, number)	Amount of Spoils Deposited (cubic yards)	Rock Pit Identifier (name, number or letter)	Acres of New Rock Pit Developed	Acres of Existing Rock Pit Expanded

20. If operating in or within 200 feet of a wetland, complete the table below. Show the boundaries of each wetland, along with its identifier, and WMZ on the Activity Map. See instructions for information.

Wetland Identifier (number, letter)	Wetland Type (A, B, or Forested)	Planned Activities in Wetland	Planned Activities in Maximum Width WMZ	Total Wetland Area (acres)	How many acres will be drained?	How many acres will be filled?
X	Forested	Harvest for road	n/a	0.7	0	0
Z	Forested	none	n/a	0.1	0	0

***** If not harvesting or salvaging timber, skip to Question 29 *****

21. If harvesting or salvaging timber, complete the table below. Show all harvest areas and unit numbers on the Activity Map. For even-aged harvest units, also show surrounding stand information on the Activity Map.

Unit Number	Harvest Type (Even-aged, Uneven-aged, Salvage, Right-of-Way)	Biomass Harvest (Y/N)	Harvest Method (Rubber Tired Skidder, Tracked Skidder, Dozer, Shovel, Full Suspension Cable, Lead-end Suspension Cable, Helicopter, Animal, Chipper-forwarder, Slash Bundler)	Acres to be Harvested	Volume to be Harvested (mbf)	Volume to be Harvested (biomass tonnage)	Volume to be Harvested (%)	Steepest Slope in Harvest Unit (%)
1	Even-aged	N	Tigger Cat, R. T. Skidder	26	625	0	98	65
2	Even-aged	N	Shovel, R. T. Skidder	2	30	0	98	15

22. Reforestation. Check the appropriate box(es).

☒ Planting. Tree Species: Douglas fir, other conifer

☐ Natural. Include a Natural Regeneration Plan

☐ Not required because of one or more of the following:

☐ I am converting some or all of this land to non-forest land in the next 3 years or lands are exempted under WAC 222-34-050.

☐ Individual dead, dying, down, or wind-thrown trees will be salvaged.

☐ Trees are removed under a thinning program reasonably expected to maximize the long-term productivity of commercial timber.

☐ I am leaving at least 100 vigorous, undamaged, and well-distributed saplings or merchantable trees per acre.

☐ An average of 190 tree seedlings per acre are established on the harvest area and my harvest will not damage it.

☐ Road right-of-way or rock pit development harvest only.

*** If you own MORE than 80 forested acres in Washington, skip to Question 27 ***

23. Are you using the exempt 20-acre parcel riparian management zone (RMZ) rule on type S, F, or Np waters?

☒ No If no, continue to Question 27.

☐ Yes If yes, continue to Question 24. See instructions for qualifications and information.

24. Choose the answer below that best fits your situation. Show all RMZs on the Activity Map.

☐ a. ALL of the following apply to me and my land: (If no, answer b.)

- Between June 5, 2006 and today's date I have always owned less than 80 acres of forestland in Washington.
- Between June 5, 2006 and today's date this parcel has always been 20 acres or less of contiguous ownership. See RCW 76.09.020 for definition of 'contiguous'.
- Between June 5, 2006 and today's date this parcel has always been owned by me or someone else that has owned less than 80 acres of forestland in Washington.

b. ONE OR MORE of the following apply to me and/or my land (check all that apply):

- ☐ I currently own more than 80 acres of forestland in Washington.
- ☐ Between June 5, 2006 and today's date I have owned more than 80 acres of forestland in Washington.
- ☐ Between June 5, 2006 and today's date this parcel has been a part of more than 20 acres of contiguous ownership. See RCW 76.09.020 for definition of 'contiguous'.
- ☐ Between June 5, 2006 and today's date this parcel has been owned by someone that has owned more than 80 forested acres in Washington.

If any of the statements in (b) above apply AND you use the 20-acre exempt RMZ rule, you are NOT authorized under the State's Incidental Take Permits (see explanation in FPA instructions under Questions 24).

25. If harvesting within 115 feet of a Type S or F water on an exempt 20-acre parcel, complete the table below. Show RMZs and stream segment identifiers on the Activity Map. If you are harvesting within 75 feet or within the maximum RMZ (whichever is less), stream shade must be assessed and met following harvest. Describe how stream shade was determined to be met, using the 'Stream Shade Assessment Worksheet' if necessary.

Stream Segment Identifier (letter)	Water Type (S, F)	Segment Length (feet)	Bankfull Width (feet)	Maximum RMZ Width (feet)	Are you harvesting within the maximum RMZ? (Y or N)

26. Are you harvesting within 29 feet of a Type Np water on a 20-acre exempt parcel?

- ☐ No Continue to Question 29.
- ☐ Yes See instructions and describe leave tree strategy in Question 31. Then continue to Question 29.

27. If harvesting within 200 feet of any of Type S or F water, complete the table below. Include DFC for all inner zone harvests unless you have an HCP prescription. Show RMZs, CMZs, and stream segment identifiers on the Activity Map. If you are harvesting within 75 feet or within the maximum RMZ (whichever is less), stream shade must be assessed and met following harvest. Describe how stream shade was determined to be met, using the 'Stream Shade Assessment Worksheet' if necessary.

Stream Segment Identifier (letter)	Water Type (S or F)	Site Class (I - V)	Stream Width (feet)	Is there a CMZ? (Y/N)	RMZ Harvest Code(s) (see instructions)	DFC Run Number	Total width of RMZ (feet)
"A"	F	III	8	N	A	n/a	101

28. If harvesting within 50 feet of Type Np water, complete the table(s) below. Show RMZs and stream segment identifiers on the Activity Map.

Stream Segment Identifier (letter)	Total Stream Length in Harvest Unit (feet)	Length of No-Harvest, 50-foot Buffers in Harvest Unit (feet)	Stream Segment Identifier (letter)	Total Stream Length in Harvest Unit (feet)	Length of No-Harvest, 50-foot Buffers in Harvest Unit (feet)

29. How are the following marked on the ground? (Flagging, paint, road, fence, etc.)

Harvest Boundaries: Pink flagging, except orange flagging on north boundary.

Clumped Wildlife Reserve Trees/Green Recruitment Trees: Clumped in RMZ, excluded steep slopes & scattered elsewhere.

Right-of-way limits/road centerlines: Orange & lime green flagging on centerline.

Stream Crossing Work: Orange & lime green flagging (stream keyed out to be a non-typed water)

Riparian Management Zone Boundaries and Leave/Take Trees: Pink flagging

Channel Migration Zone: n/a

Wetland Management Zone Boundaries and Leave/Take Trees: n/a

30. Are you converting the land to non-forestry use within 3 years of harvest?

☒ No ☐ Yes If yes, include your SEPA Determination and/or SEPA checklist.

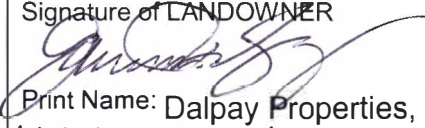

31. Additional Information (attach additional pages if necessary): For hydraulic projects in or over Type S, F, or complex N water(s) see instructions for required plan information.

Timber in northwest portion of the site on slopes over 65% were bounded out for this harvest. A 101 foot no-cut riparian buffer established abutting the north side of type "F" stream "A" under the "Fixed Width Buffer Template" for small landowners applicable to site class III ground. Stream "A" also includes an "Inner Gorge" feature. No harvest proposed south of stream "A". Unauthorized recreational hiking trails extend across northern part of the interior, and significant warning signage will be established before operations commence. In Unit 2 slash will be piled or removed to abate potential fire hazard along May Valley Road. There is a 24" x 30' culvert installation proposed for road crossing at "stream B". Stream B drains into a forested wetland with no outlet and no connectivity to typed water. Stream B is therefore a non-typed water feature and the crossing is thus intentionally not listed in Question 16.

32. We acknowledge the following:

- The information on this application/notification is true.
- We understand this proposed forest practice is subject to:
 - The Forest Practices Act and Rules AND
 - All other federal, state or local regulations.
- Compliance with the Forest Practices Act and Rules does not ensure compliance with the Endangered Species Act or other federal, state or local laws.
- If we said that we would not convert the land to non-forestry use, the county or city may deny development permits on this parcel for the next 6 years.
- The following may result in an unauthorized incidental take of certain endangered or threatened fish species:
 - Conversion of land to non-forestry use.
 - Harvesting within the maximum RMZ on a 20-acre exempt parcel that was acquired after June 5, 2006.
 - Equipment Crossings/Fords in or over Type S and F Waters.
- Inadvertent Discovery – Chapters 27.44, 27.53, 68.50 and 68.60 RCW
 - If you find or suspect you have found an archaeological object or Native American cairn, grave, or glyptic record, immediately cease disturbance activity, protect the area and promptly contact the Department of Archaeology and Historic Preservation at 360 586-3077.
 - If you find or suspect you have found human skeletal remains, immediately cease disturbance activity, protect the area, and contact the County Coroner or Medical Examiner and local law enforcement as soon as possible. Failure to report human remains is a misdemeanor.

The landowner understands that by signing and submitting this FPA, he/she is authorizing the Department of Natural Resources to enter the property in order to review the proposal, inspect harvest operations, and monitor compliance for up to three years after its expiration date. RCW 76.09.150

Signature of LANDOWNER 	Signature of TIMBER OWNER* (If different than landowner)	Signature of OPERATOR (If different than landowner)

Alternate Plan Form**

For DNR Region Office Use Only	
FPA/N #:	2420111
Region:	SP5
Received Date:	4-20-18

This form provides an outline for preparing an Alternate Plan. Although not required, it will help you prepare your Alternate Plan. Include the completed form with your Forest Practices Application. Refer to Board Manual Section 21 for help in developing your alternate plan, or contact your DNR region office for assistance.

TYPE OR PRINT IN INK:

Landowner information

<u>Name of LANDOWNER</u> Dalpay Properties, LLC	Phone: 206-399-6302 Email: jrdalpay@rocketmail.com
--	---

Contact person information.

<u>Contact Person</u> Peter C. Blansett	Phone: 425-259-4411 Email: pblansett@sanforest.com
--	---

1. Current conditions and management goals:

- List the predominate tree species, average tree height and age; note excessive blowdown, fire damage, root rot or other forest health issues; describe topography.
- Describe the resource management goals you wish to achieve through this alternate plan.

Stand consists of a 80+ year old timber including 75 % Douglas-fir or other conifer and 25% deciduous species. Some laminated root rot (LRR) pockets identified in the lower portions. Management goal is to even-aged harvest around 74% of ownership and establish a new mixed conifer stand including species which are tolerant, resistant or immune to LRR. Bulk of property will remain in Designated Forest Land under RCW 84.33 for the near term. Alternate Plan is for establishing a "Fixed Width Riparian Buffer" using the template for small forest landowners. This 101-foot wide no-cut buffer is flagged abutting the north side only of the on-site type "F" stream identified as stream "A" occurring in the southeastern-most portion of the property. Stream "A" includes an "inner gorge" feature. No activity proposed south of stream.

2. **Proposed Management Activities:** Describe what activities will be conducted (example; harvest, tree planting, road construction, etc). Describe where, how, and when each activity will be conducted.

NOTE: A representative sample of the proposed alternate plan area must be flagged on the ground for interdisciplinary team review.

Harvest and tree planting to the outside and northerly of the 101 foot no cut buffer. Entire buffer is flagged.

3. **Describe how your proposed management activity would affect the alternate plan area**

For activities in a riparian area:

- a) Describe the current level of large woody debris, shade, bank stability, sediment filtering and nutrient input.
- b) Explain the short and long term changes in the amount of large woody debris, shade, bank stability, sediment filtering and nutrient input from the current level. Be as specific as possible. See Board Manual Section 21

LWD is moderately abundant in stream. Bank is stable three feet above bankfull width no sliding or other instability observed. Shade is provided by steep banks and 130 foot high conifer trees in RMZ. 101 foot no cut buffer extends well beyond small inner gorge area and into gentle 15% slopes northerly of stream. The primary purpose of the fixed width buffer is simplicity and in this instance it is expected to result in same degree of tree retention as would apply under the standard RMZ rules. Moreover, the fixed width buffer and alternate plan will provide protection to public resources at least equal in functions, values, benefits and overall effectiveness as provided by the standard Washington State forest practices act and rules.

4. If you are planning activities in the riparian area, fill in the table below.

Stream Segment Identifier	Watertype (S,F,Np)	Affected Stream Segment Length (feet)	Average Bankfull Width (feet)	Average width of no cut buffer (feet)	Harvest one side or both sides
"A"	F	210	<10	101	one side only

5. Does this plan propose to remove hardwood trees within a riparian area in order to plant conifers?

No ☒ Yes ☐ If yes, describe the species to be planted. Include a schedule of brush control activities to ensure the planted trees will be vigorous and free to grow after three growing seasons.

6. List the specific parts of the Forest Practices Board Rules that the proposal departs from:

See Washington Forest Practices Board Rules at;
<http://www.dnr.wa.gov/BusinessPermits/Topics/ForestPracticesRules>

WAC Section	Sub-section	WAC Section/Sub-section Title
222-30	021	Western Washington riparian management zones

7. Attach map(s) (preferably 1" = 400' scale) with updated stream locations, wetlands, unstable slopes and roads. Clearly designate proposed alternate plan area. The alternate plan area must also be shown on the forest practices activity map.

8. Attach information, such as a timber cruise, water type modification forms, technical field notes, literature references, etc., that support the alternate plan.

9. Small Forest Landowner Office Monitoring

The Small Forest Landowner Office (SFLO) is required to monitor small forest landowner alternate plans for cumulative effects.

a) Does this alternate plan contain a monitoring strategy

☐ Yes ☒ No If yes, please attach.

b) May SFLO staff access the alternate plan site to conduct monitoring?

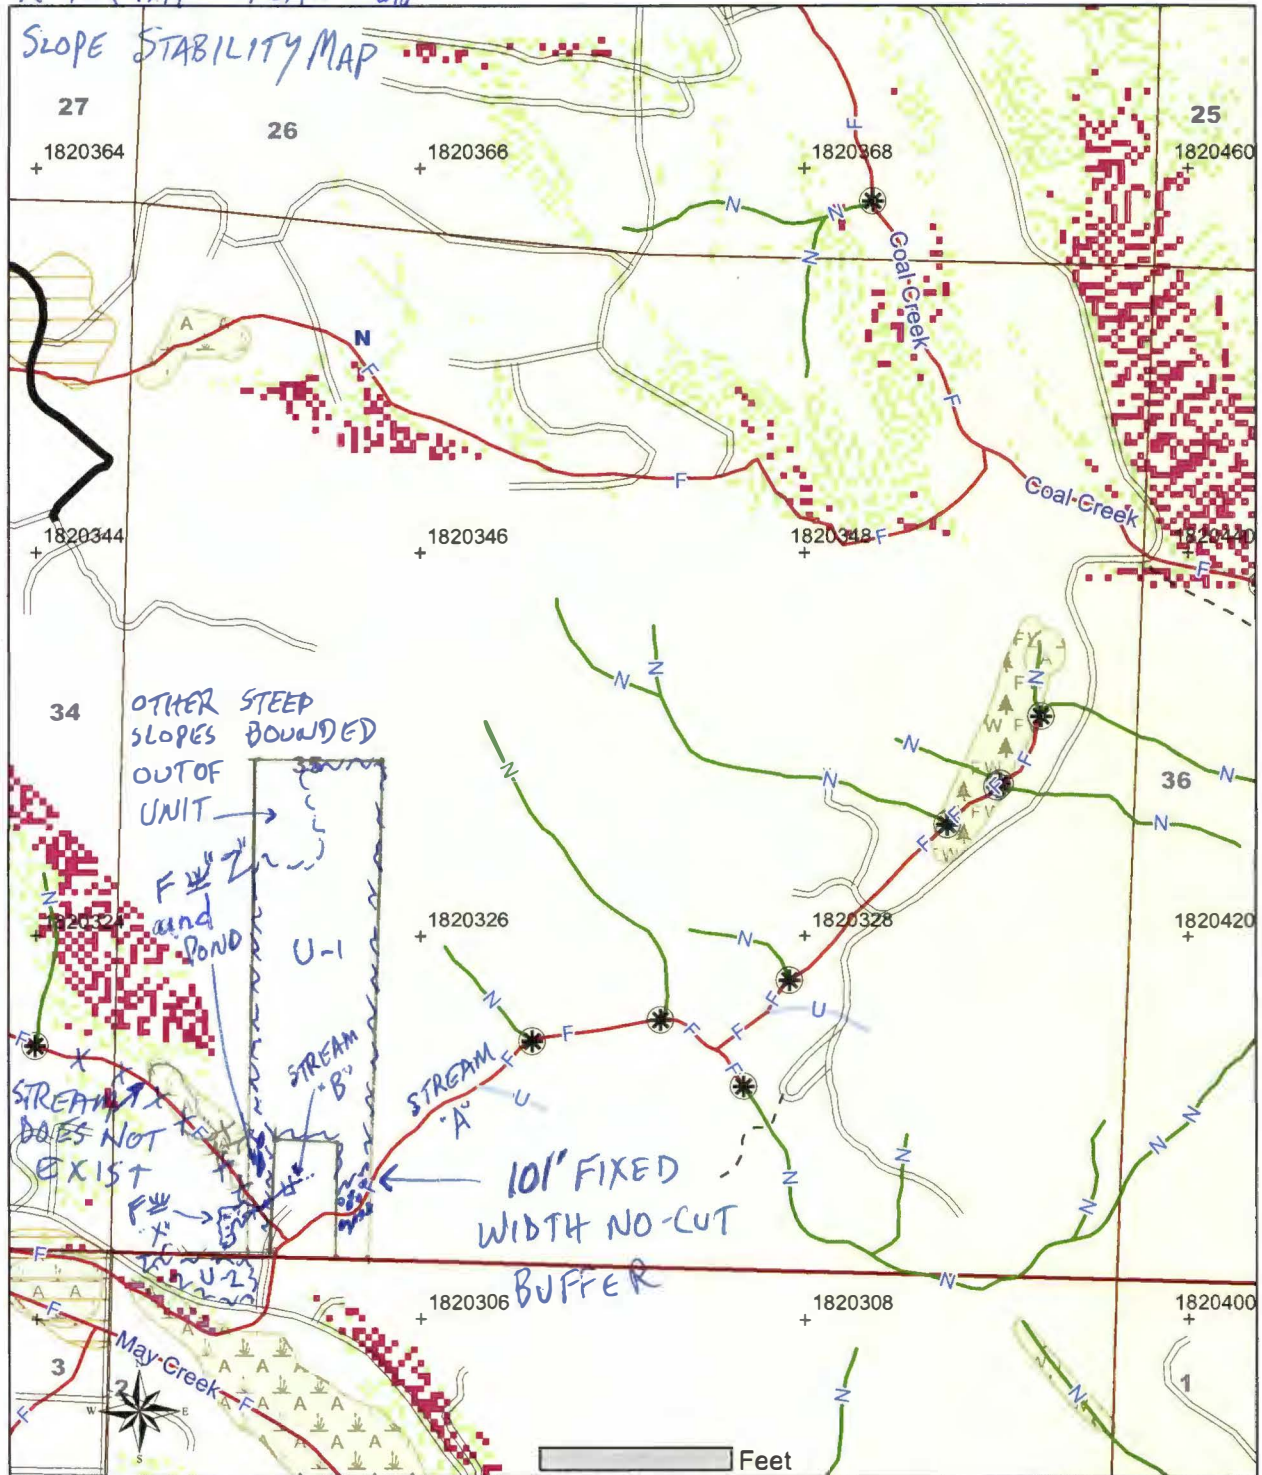

☒ Yes ☐ No

3. Is there an impoundment (ponded water) upstream of the assessed segment, that is greater than .5 acres?

- | | | |
|--|--|---|
| <input checked="" type="checkbox"/> Yes. Type F water. Stop.
<input type="checkbox"/> No. Continue. | <input type="checkbox"/> Yes. Type F water. Stop.
<input checked="" type="checkbox"/> No. Continue. | <input type="checkbox"/> Yes. Type F water. Stop.
<input type="checkbox"/> No. Continue. |
|--|--|---|

4. Are there segments within or above the assessed portion of the stream where the average BFW is two feet or greater? AND the average stream gradient is less than or equal to 16%?

- | | | |
|---|--|---|
| <input type="checkbox"/> Yes. Type F water. Stop.
<input type="checkbox"/> No. Continue. | <input type="checkbox"/> Yes. Type F water. Stop.
<input checked="" type="checkbox"/> No. Continue. | <input type="checkbox"/> Yes. Type F water. Stop.
<input type="checkbox"/> No. Continue. |
|---|--|---|

5. Are there segments within or above the assessed portion of the stream where the average BFW is two feet or greater? AND the average stream gradient is between 16% and 20%? AND, the contributing basin to the stream is greater than 50 acres?

- | | | |
|---|--|---|
| <input type="checkbox"/> Yes. Type F water. Stop.
<input type="checkbox"/> No. Continue. | <input type="checkbox"/> Yes. Type F water. Stop.
<input checked="" type="checkbox"/> No. Continue. | <input type="checkbox"/> Yes. Type F water. Stop.
<input type="checkbox"/> No. Continue. |
|---|--|---|

6. Does the stream segment contain water at all times during a normal rainfall year?

- | | | |
|---|--|---|
| <input type="checkbox"/> Yes. Type Np water. Go to 9.
<input type="checkbox"/> No. Continue. | <input type="checkbox"/> Yes. Type Np water. Go to 9.
<input checked="" type="checkbox"/> No. Continue. | <input type="checkbox"/> Yes. Type Np water. Go to 9.
<input type="checkbox"/> No. Continue. |
|---|--|---|

7. Is the stream segment downstream of a perennial source of water?

- | | | |
|---|--|---|
| <input type="checkbox"/> Yes. Type Np water. Go to 9.
<input type="checkbox"/> No. Continue. | <input type="checkbox"/> Yes. Type Np water. Go to 9.
<input checked="" type="checkbox"/> No. Continue. | <input type="checkbox"/> Yes. Type Np water. Go to 9.
<input type="checkbox"/> No. Continue. |
|---|--|---|

8. Is the stream physically connected by an above-ground channel to Type S, F, or Np water?

- | | | |
|---|--|---|
| <input type="checkbox"/> Yes, Type Ns water. Stop.
<input type="checkbox"/> No, non-typed water. | <input type="checkbox"/> Yes, Type Ns water. Stop.
<input checked="" type="checkbox"/> No, non-typed water. | <input type="checkbox"/> Yes, Type Ns water. Stop.
<input type="checkbox"/> No, non-typed water. |
|---|--|---|

9. Describe how you determined the uppermost point of perennial flow. Include a description of its location and show the point on a map (Use a separate piece of paper if necessary).

Stream/Segment ID _____ Description: _____

Appendix D. Slope Stability Informational Form

Complete and attach this form to your FPA if you answered 'Yes' to FPA Question 11 or 12. Refer to WAC 222-16-050(1)(d) and Forest Practices Board Manual Section 16—*Guidelines for Evaluating Potentially Unstable Slopes* for definitions and descriptions of potentially unstable slopes or landforms.

1. What screening tools were used? ☒ Aerial Photo, ☒ LiDAR, ☐ Landslide Inventory, ☐ Landslide Hazard Zone Polygon, ☐ GIS/Other (describe):

2. Were there any features identified using the screening tools in #1 that did not exist in the field? If yes, describe:

No.

3. a. What potentially unstable slopes or landforms were identified in the area of your forest practices activity?

Check all that apply:

- ☐ Inner Gorge ☐ Groundwater recharge areas for glacial deep-seated landslides
☐ Bedrock Hollow ☐ Convergent Headwall ☐ Toe of deep-seated landslide
☐ Outer edges of meander bends
☐ Other (Deep-seated landslides or other features of potentially unstable slopes). Describe:

- b. What activities may occur in potentially unstable slopes or landforms? Check all that apply:

- ☐ Timber harvest ☐ Road construction ☐ Suspending cables ☐ Yarding ☐ Tailholds

4. a. What potentially unstable slopes or landforms were identified around the area of your forest practices activity?

Check all that apply:

- ☒ Inner Gorge ☐ Groundwater recharge areas for glacial deep-seated landslides
☐ Bedrock Hollow ☐ Convergent Headwall ☐ Toe of deep-seated landslide
☐ Outer edges of meander bends
☐ Other (Deep-seated landslides or other features of potentially unstable slopes). Describe:

- b. What activities may occur around potentially unstable slopes or landforms? Check all that apply:

- ☒ Timber harvest ☐ Road construction ☐ Suspending cables ☐ Yarding ☐ Tailholds

5. If any features identified in #3.a. and /or #4.a. were bounded out, describe the manner in which the boundary was determined:

Inner gorge was entirely bounded out by establishing a 101 foot no cut riparian buffer. The inner gorge boundary is an obvious terrain break.

6. Were areas of public use (which may include, but are not limited to: public roads, utilities, designated recreation areas, occupied structures, etc.) identified in or around the area of your proposed forest practices activity? Show these locations on the map in #8.

Cougar Mountain Regional Wildland Park borders to the east and north of the property. The "De Leo Wall Trail" -- an established recreational hiking trail occurs immediately north and outside of property, and segments of unauthorized hiking trails extend directly through northern portions of the property.

7. Date of field review: 3-2-20 18

Person(s) that conducted field review:	<u>James C. Murphy</u>	<u>Forester</u>
	Name	Title/position
	<u></u>	<u></u>
	Name	Title/position

8. Show all field reviewed areas for potentially unstable slopes or landforms on a map (may use a forest practices activity map, harvest map or GIS map – See example below). Show locations where areas of public use exist. **This map is intended to be developed by the field practitioner.**

LANDOWNER'S STATEMENT TO MAINTAIN LANDS WITHIN A URBAN
GROWTH AREA AS A PRODUCT FOREST LANDS FOR A TEN-YEAR
PERIOD FROM THE DATE OF APPROVAL OF THE LANDOWNERS' FOREST
PRACTICE APPLICATION/NOTIFICATION

FPA NBR: 242011

Tukwila, WA 98188

ELEMENTS OF PLAN

Landowner's Forest Management Goals: Enhance forest health & growth,
produce merchantable timber and protect
public & natural resources.

Type of Harvest: (clean cut, thinning with percent of removal, or salvage of dead, down and dying trees)
Even-aged (clear cut) on 28 ± acres out of a
37.59 acre ownership

Type of reforestation (if harvest does not result in well spaced residual trees capable of fulfilling utilizing the growing capacity of the site.)

☒ Plant: Douglas fir & other 300+ Feb-March 2019
Species conifer Seedlings/Acre Month and Year of Planting

☐ Natural Reforestation: _____
Number of Seed Trees/Acre Size of Seed Block Located on Site*

☒ Time of reforestation checks: February 2020 February 2022
Month and Year Month and Year

☒ Time of Competing vegetation checks within the first five years.
Feb. 2020 Feb. 2021 Feb 2023
Month and Year Month and Year Month and Year

☒ Proposed Methods of Controlling Competing Vegetation: (mechanical, chemical):
Mechanical and backpack or aerial spray

- ☒ **Approved** This Forest Practices Application is subject to the conditions listed below.
- ☐ **Disapproved** This Forest Practices Application is disapproved for the reasons listed below.
- ☐ **Closed** Applicant has withdrawn approved FPA/N

FPA/N Classification

Number of Years Granted on Multi-Year Request

- ☐ Class II ☒ Class III ☐ Class IVG ☐ Class IVS ☐ 4 yrs ☐ 5 yrs

Conditions on Approval / Reasons for Disapproval

Condition:

- The operator is to Notify DNRs Forest Practices Forester, Eric Dasso at 425-466-4772, two business days prior to starting operation. If a break in operation occurs for greater than 3 weeks, re-notify DNR that the operation has commenced.
- To minimize soil disturbance, the use of slash mats will be required on areas where rutting exceeds 6 inches.
- An evaluation of the site by DNR must be conducted upon completion of logging. Please notify DNRs Forest Practices Forester, Eric Dasso at 425-466-4772, once logging has concluded.

Note:

- Forest debris resulting from the proposed logging may create an extreme fire hazard. Abate logging slash within 100 feet of public roads or within 100 - 500 feet of any structures valued at \$1,000.00 or more. Responsibilities for abatement are described in RCW 76.04.660 and WAC 332-24-650.
- Other laws and rules and/or permit requirements outside of forest practices may be required by the local government entity, e.g., Road Approach Permit; noise ordinance.

Appeal Information

You have thirty (30) days to appeal this Decision and any related State Environmental Policy Act determinations to the Pollution Control Hearings Board in writing at the following addresses:

Physical address: 1111 Israel Rd. SW, Ste 301, Tumwater, WA 98501

Mailing address: P.O. BOX 40903, OLYMPIA, WA 98504-0903

Information regarding the Pollution Control Hearings Board can be found at: <http://www.eluho.wa.gov/>

At the same time you file an appeal with the Pollution Control Hearings Board, also send a copy of the appeal to the Department of Natural Resources' region office and the Office of the Attorney General at the following addresses:

Office of the Attorney General
Natural Resources Division
1125 Washington Street SE
PO Box 40100
Olympia, WA 98504-0100

And

Department Of Natural Resources
South Puget Sound Region
950 Farman Ave N
Enumclaw, WA 98022

Other Applicable Laws

Operating as described in this application/notification does not ensure compliance with the Endangered Species Act, or other federal, state, or local laws.

Transfer of Forest Practices Application/Notification (WAC 222-20-010)

Use the "Notice of Transfer of Approved Forest Practices Application/Notification" form. This form is available at region offices and on the Forest Practices website: <http://www.dnr.wa.gov/businesspermits/forestpractices>.

Notify DNR of new Operators within 48 hours.

Continuing Forest Land Obligations (RCW 76.09.060, RCW 76.09.070, RCW 76.09.390, and WAC 222-20-055)

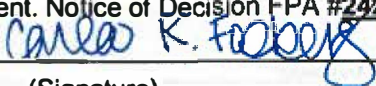

Obligations include reforestation, road maintenance and abandonment plans, conversions of forest land to non-forestry use and/or harvest strategies on perennial non-fish habitat (Type Np) waters in Eastern Washington.

Before the sale or transfer of land or perpetual timber rights subject to continuing forest land obligations, the seller must notify the buyer of such an obligation on a form titled "Notice of Continuing Forest Land Obligation". The seller and buyer must both sign the "Notice of Continuing Forest Land Obligation" form and send it to the DNR Region Office for retention. This form is available at DNR region offices.

If the seller fails to notify the buyer about the continuing forest land obligation, the seller must pay the buyer's costs related to continuing forest land obligations, including all legal costs and reasonable attorneys' fees incurred by the buyer in enforcing the continuing forest land obligation against the seller.

Failure by the seller to send the required notice to the DNR at the time of sale will be prima facie evidence in an action by the buyer against the seller for costs related to the continuing forest land obligation prior to sale.

WASHINGTON STATE DEPT OF NATURAL RESOURCES

Forest Practices Application/Notification Renewal

Instructions:

You may renew your current Forest Practices Application or Notification if :

- You are not proposing to modify the uncompleted operation.
- There are no outstanding enforcement actions associated with the application/notification.
- The current forest practices rules do not require a change in the nature and extent of the forest practice.
- You are within 60 days of expiration.

Fill out this form. Send the forms with the appropriate fees to the department region office that is responsible for the geographic area of the operation. **Type or print in permanent ink.** You can find a list of DNR region offices by going to the DNR web site at <http://www.dnr.wa.gov> and clicking on "Regions".

Renewal requests must be received and accepted at the region office prior to the expiration date of your current forest practices application or notification.

Appeal Information

You have thirty (30) days to **file** (i.e., **actually deliver**) an appeal in writing of this Decision and any related State Environmental Policy Act (SEPA) determinations to the Pollution Control Hearings Board, the Attorney General's Office, and the Department of Natural Resources' region office. See [RCW 76.09.205](http://www.wa.gov/RCW76.09.205). The appeal period starts when the applicant receives this decision, which usually happens electronically on the date indicated below.

You must file your appeal at all three addresses below:

Pollution Control Hearings Board	Office of the Attorney General Natural Resources Division	Department Of Natural Resources South Puget Sound Region
<u>Physical Address</u> 1111 Israel Road SW Suite 301 Tumwater, WA 98501	<u>Physical Address</u> 1125 Washington Street, SE Olympia, WA 98504	<u>Physical Address</u> 950 Farman Ave N Enumclaw, WA 98022
<u>Mailing address</u> Post Office Box 40903 Olympia, WA 98504-0903	<u>Mailing Address</u> Post Office Box 40100 Olympia, WA 98504-0100	<u>Mailing Address</u> 950 Farman Ave N Enumclaw, WA 98022

Information regarding the Pollution Control Hearings Board can be found at: <http://www.eluho.wa.gov/>

Other Applicable Laws

Operating as described in this application/notification does not ensure compliance with the Endangered Species Act, or other federal, state, or local laws.

Transfer of Forest Practices Application/Notification (WAC 222-20-010)

Use the "Notice of Transfer of Approved Forest Practices Application/Notification" form. This form is available at region offices and on the Forest Practices website: <https://www.dnr.wa.gov/programs-and-services/forest-practices/review-applications-fpars/forest-practices-forms-and>. Notify DNR of new Operators within 48 hours.

Continuing Forestland Obligations (RCW 76.09.060, RCW 76.09.070, RCW 76.09.390, and WAC 222-20-055)

Obligations include reforestation, road maintenance and abandonment plans, conversions of forestland to non- forestry use and/or harvest strategies on perennial non-fish habitat (Type Np) waters in Eastern Washington.

Before the sale or transfer of land or perpetual timber rights subject to continuing forest and obligations, the seller must notify the buyer of such an obligation on a form titled "Notice of Continuing Forest Land Obligation". The seller and buyer must both sign the "Notice of Continuing Forest Land Obligation" form and send it to the DNR Region Office for retention. This form is available at DNR region offices.

If the seller fails to notify the buyer about the continuing forestland obligation, the seller must pay the buyer's costs related to continuing forestland obligations, including all legal costs and reasonable attorneys' fees incurred by the buyer in enforcing the continuing forestland obligation against the seller.

Failure by the seller to send the required notice to DNR at the time of sale will be prima facie evidence in an action by the buyer against the seller for costs related to the continuing forestland obligation prior to sale.

DNR Affidavit of Mailing

On this day 3/29/2021, I placed in the United States mail at Olympia, WA, postage paid, a true and accurate copy of this document. Notice of Decision FPA #2420111.
